The Jury decide to grant 29 approvals (the list attached).

The Jury claim with satisfaction that Pomeranian Meetings with Diaporama are still developing despite being 30 years old. The competition is becoming more popular among foreign diaporama creators as well as a young generation of Polish authors mainly thanks to growing popularity of digital photography, better programmes for digital diaporama production and their accessibility.

Meetings with Diaporama are a form of culture creation, they are valuable due to their cognitive and creative aspect. Moreover, they promote Poland and the region in the world thanks to a high artistic and technical level of works and the competition’s prestige in the international environment. We congratulate the awarded on success and organizers on efficient organization of this necessary event.

Special thank you to members of Fotoklub Zamek for supporting the organization of the meetings.
