Photography has been my main hobby since 1986 and I belong to two clubs in Devon plus AV Groups. I am a past Chairman of Exmouth Photo Group and also a past Secretary for 18 years and set up their website in 1999 and now their webmaster.

My first foray into AVs was when I used to take the grandchildren out on trips and would put the photographs to music of "their choice" which of course was completely the wrong music but they still watch them 20 years later just for a laugh. I then started taking Audio Visual more seriously and of course in the first instance just put images from my trips to music. My first successful AV was Return to Paris to which I added narration and still stands the test of time. I have been inspired over the years by going to AV festivals and competitions and am finding that the AV world is progressing so much, particularly since Covid, Zoom has opened up so many opportunities for learning and encouraging more and more still image photographers.

Over the years I have gained distinctions in both prints and AVs. I have two ARPS Distinctions, one in prints and one in AV which I gained in 2012. A DPAGB in AV was awarded in 2011 and was very pleased to be awarded an MPAGB/AV in 2016 and now find that I am doing more and more in the AV world.

I have also been fortunate enough to have won a few awards in the various AV International and National competitions I have entered and was not only delighted but stunned to have been selected as Champion Audio Visual Worker in the Tauranga Photographic Society 2021 AV Salon.

I thoroughly enjoy doing presentations to clubs which are usually a variety of different genres of AVs as I like to offer something for everyone, which could be documentaries, humour, photo harmony and nature.

I make AVs to entertain people, they are not all by any means competition AVs but do make a variety of different types of AV.
